

AMENDMENTS TO THE SPECIFICATION

Please replace Paragraph [0019] with the following paragraph rewritten in amendment format:

[0019] Referring further to Figure 1, a plurality of additional routers 20, 22 and 24 are also interfaced to the communications bus 14 of the network 10. Each router 20, 22 and 24 in one preferred form comprises a portion of a "seat electronics box" (SEB) 20a, 22a and 24a, respectively. Each SEB 20a, 22a and 24a is used to interface a plurality of computing devices such as laptop computers, personal digital assistants or other personal computing devices 26 to the network 10. Of course, it will also be appreciated that a greater or lesser number of routers 20, 22 and 24 could be included depending upon the overall number of computing devices 26 which may need to be interfaced to the network 10.
